OBJECTIVE

Seeking a challenging role as a Frontend Developer where I can leverage my over **3 years of experience** in Frontend development, including integrating challenging APIs. With a proven track record of completing 18+ projects using HTML, CSS, JavaScript, React.js, Bootstrap, and various frameworks, I am dedicated to creating visually stunning and user-friendly interfaces while ensuring seamless experiences across devices.

PROFESSIONAL EXPERIENCE

Redbytes Software pvt ltd, Aurangabad.

Frontend Developer, May 2022 – Present

- Led a team of UI developers in delivering high-quality solutions using React.js, ensuring efficient code delivery and adherence to coding standards.
- Collaborated with clients to understand requirements and deliver solutions that meet business objectives and user needs.
- Demonstrated expertise in creating visually appealing and user-friendly interface
- Implemented responsive design principles and ensured cross-browser compatibility for seamless user experiences.
- Managed project timelines, milestones, and deliverables to ensure on-time and within-budget project completions.
- Optimized frontend performance by identifying and addressing performance bottlenecks, improving load times, and enhancing user experience.
- Contributed to the development of reusable UI components and design systems to streamline development and ensure consistency across projects.

Tekisky Private Limited, Nanded.

React.js Developer ,February 2021 – April 2022n

- Actively contributed to React.js projects as an intern, gaining practical experience in frontend development and React.js fundamentals.
- Learned and implemented API integration techniques in React.js applications, fetching and displaying data from external sources to enhance functionality.
- Acquired proficiency in Redux for state management, improving the organization and scalability of React.js applications.
- Embraced a component-based architecture in React.js development, creating reusable UI components for modular and efficient codebase maintenance.
- Collaborated with senior developers to troubleshoot issues, debug code, and optimize frontend performance for enhanced user experience.
- Assisted in UI/UX design discussions, providing input on layout, usability, and user interactions to create intuitive and visually appealing interfaces.
- Conducted testing and debugging of React.js components, ensuring functionality, compatibility, and responsiveness across browsers and devices.
